

We are hiring

JOIN OUR TEAM

The Restena Foundation has an immediate opening for a

SYSTEM ENGINEER (M/F)

Permanent contract • Fulltime/40h • Belval

Your work environment

You will join a not-for-profit organization that not only supports research and education and provides infrastructure to the entire internet community through the operation of .lu. We believe strongly in open standards and open-source software to provide secure and reliable services.

Your main tasks

- Manage, operate and develop both the IT infrastructure and Restena's email platform.
- Manage and operate the multi-site storage system, the core database system and the backup system.
- Support Restena's users.
- Ensure monitoring of the health of servers and services.
- Contribute to install, test and roll out new services.
- Enhance automatization and optimize IT management processes.

You will be required to participate in an on-call rotation.

Your profile

- Degree in computer science or equivalent.
- At least 3 years of relevant work experience.
- Demonstrated knowledge of Linux system-administration in a production environment.
- Good knowledge in scripting.
- Experience in providing internet services.
- Good security reflexes.
- Good command in speech and writing in English, French and/or German. Luxembourgish would be a strong asset.
- Team working, open to learn new skills, flexibility, organized work style.

Additional valuable skills: web-development and programming, automatization via Ansible, VMWare administration, PHP, network and application protocols, database management.

How to apply?

If you are interested, please send your curriculum vitae and motivation letter in English and French or German with copies of relevant certificates to jobs@restena.lu.

For further information about the position, contact Gilles Massen (+352 424409-25)

A not-for-profit organisation, the Restena Foundation operates and manages the high-speed network for education and research in Luxembourg and is the national partner in the worldwide research and educational network community. Restena also operates the Internet country code top-level domain (ccTLD) registration infrastructure in Luxembourg (.LU). www.restena.lu
